Earth Day

The Eco Team held a special assembly, with a presentation on 'Plastic vs Planet' for Earth Day.

They explained the importance of reducing our plastic use and the impact it has on our planet.

After seeing the effect plastic pollution has on our environment, the Eco Team are keen to make a positive difference to our plastic use in school.

The Team are working towards Buckshaw Primary becoming a 'Plastic Clever School' and are well under way, carrying out several projects to achieve the stage 1 accreditation!

GROW YOUR OWN POTATOES

The Eco Team was keen to experience what it takes to grow the food we eat so took advantage of the 'Grow Your Own Potatoes' scheme. We were sent seed potatoes of 'Shannon' and 'Casablanca' varieties, which are known for producing high yield and are perfect for cooking. Once the potatoes were 'chitted', they were planted and have since sprouted leaves. We are hoping for a bumper harvest!

KS2 took part in a recycling workshop led by Konflux theatre group, on behalf of Chorley Council. The workshop, entitled 'What Goes Around Comes Around', explored the impact that recycling has on our environment, educating young people about the environment around them, and how the future of our planet is in their hands. It also gave the Eco Team ideas for future projects.

Don't forget to recycle your empty ink and toner cartridges with our 'Empties Please' scheme!
