

Optional Homework:
I have sent home the place value end of unit assessments for any children to practice, and some perimeter practice on dojo ahead of next week's end of unit check

Well done year 4 for another great week. We have worked hard on creating our magazine articles, which we will publish next week! We also had a lot of fun making pan pipes while learning about pitch in Science. Today, we used pastels and practice smudging techniques as part of an exploration of genre.

Reminder: Keep up the hard work with reading three times at home as well as times tables.

Well done to our Star of the Week Georgia and our Active Learner Freya! Keep up the good work!
